Smithsonian Quilt Exhibit

<http://americanhistory.si.edu/quilts/>

From the information given in these sites and your knowledge of Escher's work and tessellations, answer the following questions:

1. Name six different quilting patterns and sketch each one.
2. Name eight different quilting periods and give three characteristics of each.
3. Name three authors of 18th century quilts.
4. Describe the relationship between quilting and tessellations. Give examples from the quilting sites to support your reasoning.
5. Think about how M.C. Escher and an Early American quilter might view each others' work. Write a one page conversation between Escher and the quilter in which they discuss the creation of their favorite pieces.
