

Name _____ Group Letter: _____

Graphic Organizer #1

As you read each site assigned to your group, find information about the topics found in the boxes below. Either write your answers in the box or type into the boxes and print your copy when done. You will need this information to share when you jig-saw into a new group.

<p>What were some early ideas/ attitudes toward negative numbers?</p>	<p>Many years ago, why did people find they needed negative numbers?</p>
<p>How are integers used in the real world today?</p>	<p>Find an example of an addition or subtraction problem in real life, and its solution.</p>
<p>What definitions have you found?</p>	<p>What "rules" for addition or subtraction of integers did you find?</p>
