

### Pre Assessment on Adding and Subtracting Integers

1.  $-33 - 22 + (-11)$
2.  $45 - 81 + 17$
3.  $-7 - (-12) + 8$
4.  $88 - 98 - 65$
5.  $-3 - (-11)$
6.  $-73 + (-21)$
7.  $99 - 78 - (-61)$
8.  $-64 - (-64)$
9. You enter the hotel elevator in the parking garage, 4 floors below the lobby level. You get off to go to your room on the 11<sup>th</sup> floor. How many floors have you traveled in the elevator?
10. Last season the long jumpers on the track team averaged a distance of 15 feet per jump. In the first meet this season, Jason jumped 3 feet short of the average, Abdul jumped 2 feet over the average, Van jumped 4 feet over the average, and Maria jumped 1 foot short of the average. Write an expression to show each jumper's distance in relation to the average from last year.
